

ALEXA 35

Mechanical support packages

The ALEXA 35 features a new line of mechanical support components that expand the camera's capabilities and ensure maximum speed and versatility on set.

Available in two discrete sets, these accessories are designed to cater to a wide range of shooting styles, providing flexible options for any situation.

ALEXA 35 Production Set

The ALEXA 35 Production Set meets the workflow needs of a traditional camera department and is ideal for most crews working on large feature film, TV drama, and commercial productions. Both 15 mm lightweight and 15 mm or 19 mm studio rod standards are supported on the improved CBP-5 or CBP-6 bridge plate and shoulder pad. The new, full-size top handle CCH-5 and extendable VMB-5 viewfinder bracket offer rock-solid support, and can be rapidly removed without tools when changing shooting modes. Several side bracket options provide a plethora of mounting points for various accessories.

K0.0041726 ALEXA 35 Production Set 19 mm Studio

This set includes:

K1.0039373	ALEXA 35 camera body

ALEXA 35 Lightweight Set

The ALEXA 35 Lightweight Set is perfectly suited to situations where a small and nimble, yet comprehensive camera package is preferred.

Lightweight 15 mm rods are supported in the BPA-6. An integrated Touch-And-Go 35 interface can be replaced with traditional BP-8 or BP-9 bridge plates for studio rod support. For even smaller packages, the CSP-2 offers comfortable, flexible shoulder mounting with the lowest-possible center of gravity. A lightweight carbon fiber top handle offers tool-less removal and support for a variety of suspension harnesses through the unique BHA-1.

K0.0041722 ALEXA 35 Lightweight Set

K0.0043085 ALEXA 35 Production Expansion Set (15 mm)

Additional accessories

The ALEXA 35 has been designed as a complete system. There are many additional accessories available, including vertical adapter plates for portrait shooting and six SAM plates that allow rapid, tool-less reconfiguration for mounting on stabilizers such as Steadicam, Ronin 2, Movi Pro, and the ARRI CSS range. For the first time, the ALEXA 35 supports new electronic modules that enhance the capabilities of the camera while remaining integrated with the camera body. The PDM-1 offers an additional seven accessory power outputs, while the Audio Extension Module AEM-1 adds two high-quality microphone preamps to the camera for location sound, as well as extra accessory power outputs. The new EPA-1 offers rapid connection to external power when the Steadicam is on standby.
