A. Features

AMA link

The ALEXA AMA Plug-in supports the linking of ALEXA MXF DNxHD 220x and 145 files into Media Composer Version
MAC/Win 5.5 and 6.0.

Linking to Files (MSP link)

Individual clips can be linked into active bin.

Linking to a Volume (MVP link)

Automated linking to entire Volume into a new bin.

Metadata

Automated adding of camera metadata to Avid Bin column heading after AMA link.

B. Bug Fixes

This version addresses the following issues:

- Media Composer was crashing when “ALL AMA Plugins ” was selected in the AMA Plug-in Filter menu for “Link to AMA File(s)”.
- Media Composer was not able to playback render files in progressive AVID projects. Error message "exception no compressed data format found for specified VCID and video format"

C. Known Issues

D. White Paper

There is a White Paper MXF DNxHD available for download on the arri.com download page.
