| WIN | 5.0.0   | 25563 | 2020-09-30   | • Release for Orbiter Firmware 1.0.5  
      |         |       |              | • General support for Orbiter  
      |         |       |              | • Includes the latest firmware components for all supported fixtures except the orbiter firmware  
      |         |       |              | • Firmware installation to multiple Orbiters is supported  
      |         |       |              | • Bug fixes |
| MAC |         |       |              | • Release for SkyPanel Firmware 4.2  
      |         |       |              | • Added Light Engine Compensation in GUI and function |
| WIN | 4.2.0   | 25339 | 2019-04-11   | • Release for SkyPanel Firmware 4.1  
      |         |       |              | • Includes FW 4.1  
      |         |       |              | • Improved GUI functionality  
      |         |       |              | • Added display, bonjour and extended color control settings  
      |         |       |              | • Group view is blocked during batch processes  
      |         |       |              | • Stability improvement  
      |         |       |              | • Fixed Bugs |
| MAC |         |       |              | • Release for SkyPanel Firmware V3.2  
      |         |       |              | • General support for S360-C  
      |         |       |              | • Includes FW 3.2 for S360-C  
      |         |       |              | • Includes Bootloader for S360-C  
      |         |       |              | • Fixed Bugs |
| WIN | 4.1.0   | 24942 | 2018-11-14   | • Release for SkyPanel Firmware V3.0  
      |         |       |              | • Multi Selection of SkyPanels  
      |         |       |              | • Change of all settings in the GUI will be applied to all selected SkyPanels, if applicable  
      |         |       |              | • Batch-import of json-settings-file to all selected SkyPanels (only allowed for same type; -C or –RP)  
      |         |       |              | • UI for changing the webserver password configuration for SkyPanels with firmware release 3.0  
      |         |       |              | • Update functionality for SkyPanel Remotes  
      |         |       |              | • Type of DFU device can be selected during registration (Bootloader update of SkyPanel or Firmware Update of SkyPanel Remote)  
      |         |       |              | • DMX implementation table V4.3  
      |         |       |              | • IP-Connect-Dialog with new functionality  
      |         |       |              | • Reset error state for selected devices  
      |         |       |              | • Fixed bugs  
      |         |       |              | • Added latest firmware components for SkyPanel and SkyPanel Remote |
| MAC | 3.2.0   | 21930 | 2018-02-07   | • S120 support  
      |         |       |              | • DMX Implementation Table V4.2  
      |         |       |              | • Location for firmwaredata in <commonappdata>  
      |         |       |              | • Automatic search for updates on ARRI-Server |
| WIN | 3.0.0   | 18069 | 2017-04-24   | • Release for SkyPanel Firmware V3.2  
      |         |       |              | • General support for S360-C  
      |         |       |              | • Includes FW 3.2 for S360-C  
      |         |       |              | • Includes Bootloader for S360-C  
      |         |       |              | • Fixed Bugs |
| MAC | 2.2.1   | 15611 | 2016-10-19   | • Release for SkyPanel Firmware 4.1  
      |         |       |              | • Includes FW 4.1  
      |         |       |              | • Improved GUI functionality  
      |         |       |              | • Added display, bonjour and extended color control settings  
      |         |       |              | • Group view is blocked during batch processes  
      |         |       |              | • Stability improvement  
      |         |       |              | • Fixed Bugs  
<pre><code>  |         |       |              | • Added latest firmware components for SkyPanel and SkyPanel Remote |
</code></pre>
